

E-Tarot June

June is the month of the father, with Father's Day falling on June 18. In the Tarot, the father is symbolized in the Emperor card. He represents the laws of the land, fair leadership, social propriety, and making our "word as good as gold". Saying what we mean and doing what we say. That's the directive of the Emperor/father. He teaches us to take responsibility for our lives, get what we want, with an eye to the greater good. He is Yang, animus, confident, sure-footed, pragmatic and intelligent.

As our world struggles for balance, we have much to learn from our fathers! In my family, fathers contributed an enormous amount of their energy in standing up for causes they believed in, fought in wars and worked hard to make this world what they believed would be more fair, just, and sustainable. As misguided as we might now regard our fathers to have been, we all know at least one father who is selflessly loving, dedicated, and protective of their children and grandchildren. Send this Emperor in your life a card, a tribute, and thank you, on June 18th. He deserves to know how much his support is valued, and how just being a great dad to someone makes this world an easier journey for us all.

Quote:

“The Emperor represents conspicuous, authoritative, fathering energy and power – very much like the magnified King energy that combines the virtues of ALL the suits. This is “father love” on a primal, instinctive level. It shows courage, determination, leadership, self mastery and self-control, achievement, integrity, and attaining declared goals through planning, persistence, and discipline. It is being in control, taking charge, giving direction, and accepting responsibility. It is asserting yourself effectively, and having the initiative, ambition, and capacity to implement your visions, dreams, and ideas in practical ways. It is pure ARIES energy at its best.”
